ADVANCING PARTNERSHIP FOR SUSTAINABILITY

1. We, the Heads of State/Government of ASEAN Member States, gathered in Bangkok for the 35th ASEAN Summit on 2-3 November 2019. We reiterated the importance of continuity and sustainability in ASEAN Community-building efforts and commit to continue promoting partnership for sustainability, within ASEAN and in ASEAN’s relations with the international community, in order to realise a people-oriented, people-centred ASEAN Community that leaves no one behind and looks to the future.

2. We reaffirmed our commitment to realise ASEAN as a region of lasting peace, security and stability, sustained economic growth, shared prosperity and social progress. We recognised the rapidly changing geostrategic landscape and the need for ASEAN to be increasingly proactive, in order to remain relevant as well as to maintain ASEAN centrality and ASEAN’s role as the primary driving force in the regional architecture.

3. We acknowledged that realising the goals and aspirations of ASEAN integration requires strong partnerships with our Dialogue Partners and other external partners. We therefore underscored the need to continue promoting synergy among the various ASEAN-led mechanisms, including the ASEAN Plus One, ASEAN Plus Three (APT), East Asia Summit (EAS), ASEAN Regional Forum (ARF) and ASEAN Defence Ministers’ Meeting Plus (ADMM-Plus).

4. We reaffirmed our shared commitment to maintaining and promoting peace, security and stability in the region, as well as to the peaceful resolution of disputes, including full respect for legal and diplomatic processes without resorting to the threat or use of force, in accordance with the universally recognised principles of international law, including the 1982 United Nations Convention on the Law of the Sea (UNCLOS).
5. We noted with satisfaction the work that has been done in implementing the ASEAN Leaders’ Vision Statement on Partnership for Sustainability. We reiterated our goal of moving towards a sustainable ASEAN, through enhancing sustainable security, promoting a seamless ASEAN that is connected to the world and pursuing sustainable development in order to increase ASEAN’s strategic value-added and bring about regional stability and prosperity. We encouraged harnessing technological advances to enhance resilience and ASEAN’s competitiveness in addressing the growing change and complexities in the regional and global environment, including those arising from the Fourth Industrial Revolution (4IR).

17. We expressed serious concerns regarding global moves to reschedule certain types of illicit drugs and encouraged ASEAN Member States to reaffirm its commitment towards a drug-free region and a zero-tolerance approach towards illicit drugs to reinforce ASEAN’s centrality and unity in mitigating undue influences that are against ASEAN’s stand. In the light of this, we reaffirmed our full support to the cooperation to fight illicit drugs under the ambit of the ASEAN Ministerial Meeting on Drug Matters and the ASEAN Senior Officials on Drug Matters (AMMD/ASOD). We took note of the outcome of the First Internal Review of the ASEAN Work Plan in Securing Communities Against Illicit Drugs 2016-2025 (ASEAN Work Plan 2016-2025), which highlighted 79 per cent of implementation rate. While we noted with appreciation the various initiatives and actions undertaken by ASEAN Member States and the ASEAN Specialised Meteorological Centre, as well as the continuous efforts in strengthening national capabilities and regional cooperation in assessment, prevention, mitigation and management of land and/or forest fires and the resulting haze, we urged ASEAN Member States to step up preventive measures and immediate fire suppression procedures to mitigate land and forest fires and to minimise the occurrence of transboundary haze during periods of dry weather. We noted the progress towards the finalisation of the Establishment Agreement and Host Country Agreement of the ASEAN Coordinating Centre for Transboundary Haze Pollution Control (ACC THPC) in Indonesia.

Recalling the recommendations of the High Level Task Force (HLTF) on Strengthening the ASEAN Secretariat and Reviewing the ASEAN Organs which were adopted in 2014, we commended the work of the ASEAN Coordinating Council (ACC) and the ASEAN Community Councils, with the support of the Committee of Permanent Representatives to ASEAN (CPR), relevant Senior Officials and the ASEAN Secretariat, in addressing the recommendation lines. In line with the efforts to strengthen the ASEAN Secretariat, we welcomed the new ASEAN Secretariat building inaugurated by the President of Indonesia and the Foreign Ministers of ASEAN Member States and their representatives on 8 August 2019, and encouraged more ASEAN meetings to be convened at the new building to underline ASEAN centrality and unity. We also looked forward to the continued implementation of the East Asian Vision Group II recommendations aimed at promoting East Asian cooperation.

47. We reaffirmed the importance of the East Asia Summit (EAS) as a Leaders-led forum for dialogue on broad strategic, political, and economics issues of common interest and concern with the aim of promoting peace, stability and
economic prosperity in the region. We agreed to further strengthen EAS cooperation by implementing the Manila Plan of Action to Advance the Phnom Penh Declaration on the EAS Development Initiatives (2018-2022). We welcomed the continued discussion and efforts to strengthen the EAS, in line with the 2015 Kuala Lumpur Declaration on the 10th Anniversary of the EAS and based on the established objectives, principles and modalities of the EAS. We underscored the importance of ASEAN centrality, unity and leadership in the evolving regional architecture. We reaffirmed the need to reinforce an ASEAN-centred regional architecture that is open, transparent, inclusive and rules-based. We encouraged external partners to work with ASEAN in promoting the principles as contained in the ASEAN Outlook on the Indo-Pacific and to undertake cooperation with ASEAN on the four key areas of cooperation, namely maritime cooperation, connectivity, sustainable development and economic cooperation, in order to realise practical projects. In this regard, we noted with appreciation Indonesia’s initiative to convene the ASEAN Indo-Pacific Infrastructure and Connectivity Forum in 2020. We shared

We welcomed the completion of the first reading of the Single Draft COC Negotiating Text in July 2019. We stressed the importance of undertaking confidence building and preventive measures to enhance, among others, trust and confidence amongst parties.

51. We discussed the matters relating to the South China Sea and took note of some concerns on the land reclamations and activities in the area, which have eroded trust and confidence, increased tensions and may undermine peace, security and stability in the region. We reaffirmed the need to enhance mutual trust and confidence, exercise self-restraint in the conduct of activities and avoid actions that may further complicate the situation and pursue peaceful resolution of disputes in accordance with international law, including the 1982 UNCLOS. We emphasised the importance of non-militarisation and self-restraint in the conduct of all activities by claimants and all other states, including those mentioned in the DOC that could further complicate the situation and escalate tensions in the South China Sea.

52. We stressed the importance of continued peaceful dialogue amongst all concerned parties in order to realise lasting peace and stability in a denuclearised Korean Peninsula by all concerned parties.
